DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

- Figures 2 and 3 should be labeled --Prior Art--.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

Claims 1, 38 and 39 recite an antenna device and method for tuning the antenna device comprising a first radiating element, a second radiating element parallel to and proximity to the first radiating element, a first conductive loop connecting a first end of the first radiating element and a first end of the second radiating element, a second conductive loop connecting a second end of the first radiating element and a second end of the second radiating element, and a discontinuity in the first radiating element, wherein the discontinuity is a feed point for supplying RF to the first radiating element.

None of prior arts shows or suggests this antenna device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tan Ho whose telephone number is (571) 272-1822. The examiner can normally be reached on M-F (8:00AM - 5:00PM).
